

CHECK GETS MRS. WEST IN TROUBLE

Manager of Portola Theater is Arrested on Warrant Filed by Indianapolis Jewelry Firm.

IS FOR GRAND LARCENY

Brother Denies Charge and Says She Owes Concern Only \$50 Which is Balance.

Mrs. Frank West was arrested on a grand larceny charge preferred by Gray, Hibben and Gray, an Indianapolis jewelry firm, Saturday afternoon. The warrant was sent here by the Indianapolis police department and served by Chief McAllister. Mrs. West was taken to Indianapolis Saturday night by Detective DeRossette.

According to Warner Schmidt, a brother of Mrs. West, the trouble was adjusted this morning and there was no trial. Mr. Schmidt says the case was the outgrowth of a check issued by Mrs. West to Gray, Hibben and Gray in payment for two diamond rings. The transaction took place last summer and the warrant for her arrest was dated October 9, 1912. Mr. Schmidt says she purchased two rings for \$180 and gave a check for \$350. The check went back to the jewelry firm because of insufficient funds. When pushed for the money Mrs. West took back one of the rings and owed the firm \$256. According to Mr. Schmidt this has all been paid off with the exception of \$50 and this was the amount that caused her arrest.

He was notified this morning that the matter had been adjusted and the firm dropped the case. The costs amounted to \$12.50 and it was settled upon payment of this and the \$50. The warrant received here charged grand larceny and gave the amount as \$256. The date was October 9, 1912. The warrant was filed at this time but it is said the firm did not push it as they were assured that a settlement would be made.

Mrs. West has been part owner of the Portola theater and has acted as manager of the place since its opening over two years ago. Mr. Schmidt will now take over the management of the theater. He has been the operator here since last August and from now on will have complete control of the place.

Chief McAllister called the Indianapolis police department this afternoon and was told that Mrs. West appeared before Judge Collins in police court this morning at ten o'clock and that the case was postponed until 2:30 o'clock Wednesday afternoon. If this is the case Mrs. West is not yet out of the difficulty and it may cause her some trouble before Judge Collins dismisses the charge. Judge Collins does not stand for the police department being made a collection agency.

MAY GO ABROAD.

Greensburg News: Miss Rebecca Wirt, a daughter of George Wirt of Clarksburg, stands excellent chances of being sent to Europe this summer to study before the old masters. Miss Wirt is now engaged in a subscription contest for the Arts and Decoration, an art publication, which proposes to send the winner of their contest abroad, paying all expenses. Miss Wirt has studied art for some time and she has shown remarkable talent and ability.

A ditch eleven miles long, and from 85 to 110 feet wide, has been completed in Clay county, South Dakota. It will drain nearly seven thousand acres of valuable lands.

JAMES MILLER RE-ELECTED

He is Now Attendance and Not Truant Officer.

James Miller was re-elected county attendance officer at the regular meeting of the county board of education in the county superintendent's office this afternoon. He was the only candidate. The last legislature amended the law to change the truant officer title. All but two of the trustees attended. The classification of teachers was a topic for discussion by the members of the board a good part of the afternoon. The reports on the school and war veterans enumeration in each township were to be made.

CIGARETTE LAW WILL BE ENFORCED

Arrests Will Follow After Tuesday Night, According to Police. Two Days' Grace.

WARNING GIVEN TO MINORS

The cigarette law passed by the last legislature will be enforced in this city beginning Wednesday. The police will give the dealers and minors affected by the law two days of grace before starting to enforce the law and after Tuesday night arrests will follow. The police, according to Chief McAllister, will watch all minors and dealers closely. Boys under twenty years of age found with cigarettes or papers in their possession will be arrested as will all dealers who sell to minors. "Since this is the law," said Chief McAllister this morning, "I am going to enforce it and after Tuesday night the 'coffin nails' must go."

The law is very strict and makes it unlawful for a minor to even have cigarettes in his possession. It gets both the dealer and the minor and will work a hardship on a number of youthful smokers here.

SHE MAY GO OUT ON REDPATH CIRCUIT

Miss Norma Smith Has Until Monday to Decide Whether to Accept Offer.

HER TRY-OUT IS BIG SUCCESS

Miss Norma Smith, daughter of Dr. and Mrs. Will C. Smith, who was given a try-out by the Redpath Lyceum bureau at Chicago Saturday, will have to decide by next Monday whether she will take advantage of an offer to follow the Redpath chautauqua circuit this summer with a company of six women entertainers. Very favorable comments were made on Miss Smith's appearance before the Redpath managers and a contract was at once offered for the summer. If she accepts, she will report at Winona Lake at once where the company will hold rehearsals for a few weeks before opening the circuit in Minnesota. If Miss Smith determines not to begin Lyceum work this summer, she will have an opportunity to go with the Redpath people next fall for the winter entertainment season.

O. E. S. MEETING.

Martha Poe chapter No. 143 O. E. S. will meet in regular session tomorrow night. A large attendance is desired.

PLEASURE RIDE ENDS FATALLY

Shirl Nigh of Near Morristown Instantly Killed When Auto Skids in Fresh Gravel.

MRS. NIGH WILL RECOVER

Roger Smith, Farm Laborer in Machine, is Fatally Hurt—Nigh Boy Escapes Unhurt.

Shirl Nigh, a prominent and well-to-do farmer living a short distance south of Morristown, was instantly killed, his wife seriously injured, Roger Smith, a farm laborer, was fatally hurt and a son of the victim, was only slightly injured Sunday evening about dusk when the automobile Mr. Nigh was driving skidded in some fresh gravel, left the road and upset.

This afternoon there was said to be some doubt about the recovery of the farm laborer, but Mrs. Nigh did not sustain fatal injuries as was at first thought. She suffered a broken arm, was badly bruised and got a severe nervous shock. Her condition this afternoon was better than the attending physician had thought it would be.

It is impossible to determine how Smith's injuries may terminate. One of his eyes is fearfully gouged. It is probable that it will have to be removed. He will lose the sight of this eye. He is badly hurt about the head and may be injured internally.

Mr. Nigh was counted a skilled automobile driver. He purchased a machine a year ago last spring and had become well versed in the methods of handling it.

He was driving it at a fast gate yesterday evening when they suddenly ran into a patch of fresh gravel.

The back wheels skidded and the front wheels slipped out of the tracks in the gravel and threatened to carry the auto into the ditch. Mr. Nigh worked valiantly to get the machine back in the road, but it only got worse. It wobbled from one side of the road to the other, and finally went into a field at the side of the road.

The automobile turned over three times before it came to a stop. The fourteen-year-old boy had a rather remarkable escape because he was thrown clear of the wreckage and landed uninjured on the ground several feet away. One of his hips was slightly bruised.

The Nigh boy ran for aid and Mr. and Mrs. Nigh were removed to their home. Mr. Nigh was pinioned under the ear, which was removed from off his body with some difficulty. His head was crushed and apparently his neck was broken.

Roger Smith, the farm laborer, was taken to the home of Frank White, where he is employed.

The funeral services of Mr. Nigh will be held at the residence Wednesday morning at ten o'clock, with the Rev. Mr. Gowdy of Gwynneville officiating.

MORE WITNESSES.

Subpenas for additional witnesses to appear before the grand jury in the second investigation of the C. H. & D. wreck in Irvington, November 13, 1912, were issued Saturday, says the Indianapolis Star. The witnesses are said to be the same who appeared before the grand jury soon after the wreck. Some of them are members of the freight train crew. Others are said to know of the condition of the switch light, which is said to have been extinguished. They were called to appear before the grand jury Wednesday and Thursday.

MANY TO ASK FOR A PERMIT

Several Property Owners Will Petition Council to Oil Streets by Private Contract.

THIS CAN BE DONE AT ONCE

If no One is Opposed to the Improvement—Remonstrators Would Cause a Delay.

There are still a few people in Rushville who do not seem to know they can have their streets oiled by private contract regardless of the law passed by the last legislature. The law, which makes it possible to compel a rare, stubborn property owner, who might spoil the improvement in a block, to pay has no effect on the old plan.

There is one exception, however, that abutting property owners should remember. Before the street is oiled the property owners must have a permit from the city council and the work must be done according to the specifications which will be ordered by the council and which will be placed on file.

So many residents have a false impression about the workings of the new statute. The law sets forth that property owners should petition the city council and that the council should set a time for hearing remonstrators. If the remonstrators were not numerous enough to stop the improvement, then the council would have to advertise for bids.

There are some persons who have a right understanding of the measure and are prepared to get a permit for oiling when the council meets tomorrow night. Although the signatures of all the abutting property owners have not been obtained, it has been learned that there is no one living between Eighth street and the J. M. & I. railroad in Harrison street who does not favor oiling. The same condition prevails in Eighth street from Jackson to Morgan.

The property owners in these given sections will merely petition the city council tomorrow night for the permission to oil the streets. The council will grant the permit and the oiling can be done by private contract, beginning Wednesday.

Whereas, if any number of property owners want to oil their streets and have some neighbors who are opposed to the improvement, a petition will have to be filed and remonstrators heard. If the petitioners should win under these circumstances even, all of the legal steps could not be taken and the work started before May 28.

Rushville people have been eating dust for the last few weeks and they are very anxious to get rid of it. They should adopt the plan being used by the Harrison street people. If there is none in the block who is opposed to oiling, merely get them to sign a petition asking for a permit to oil and present it to the city council tomorrow night.

MASONIC NOTICE.

Phoenix Lodge will confer the M. M. degree this evening at 7:30 o'clock. Refreshments will follow the work. Brethren are urged to be present.

Thomas Sullivan, 112 years old, of Williams Bay, Wis., takes a cold bath every morning unaided.

Japanese paper umbrellas and lanterns are waterproofed with an oil extracted from rubber plant seeds.

Korean waters are rich in whales this year. The boats of one company caught a dozen of them in one day.

HAS LARGE ATTENDANCE

Fifty-two in Bible Class at Presbyterian Church.

The Men's Bible class of the First Presbyterian church elected officers yesterday for the ensuing year. The class had the largest attendance yesterday since it was organized. The officers elected are as follows: A. P. Walker, president; Lee Pyle, vice-president; William McGuire, secretary; Fred Neutzenhelzer, assistant secretary; Samuel L. Trabue, treasurer; J. B. Meacham, leader, and J. F. Moses, assistant leader. Next Sunday, in observance of Mothers' day, the Men's Bible class will give a carnation to everyone attending Sunday school.

MAY TERM COURT STARTED TODAY

Started Off With Rush and Judge Disposed of Several Cases—Jury Called For Tomorrow.

NAMED BOARD OF REVIEW

The May term of the circuit court started off with a rush today and indications are that it will be a busy term. The petit jury has been called for tomorrow when the case of James F. Forbes, et al., against the Board of Commissioners will come up for trial. The case is against the accepting of the Forbes road. It will probably take three days to try the case.

The case of John B. McDaniel against Ephraim Peck on a note, demanding \$125, was dismissed this morning and the costs paid. The plaintiff in the case of the C. I. & W. railway against Frank Murphy et al., for condemnation, filed a motion dismissing the exceptions taken to the appraisers' report. The case was brought in 1912 and the court appointed three appraisers. Exceptions to the report were made. The motion today ends the case. Three cases against Jerry B. Offutt et al., were sent to Hancock county on a change of venue.

Judge Megee appointed John M. Stiers and Thomas Power as members of the board of review. The county auditor is the other member of the board. The new rules of the court were made a part of the court record and are now in effect.

PAYNE REALTY CO. FORMED

Will Erect a New Home for Two Financial Institutions

The Payne Realty Company of Rushville has just been incorporated under the laws of the State of Indiana, by Mrs. Edwin Payne, Ralph Payne and Earl H. Payne, with a capital stock of \$75,000.00, for the purpose of buying and selling state, county and municipal and all other bonds, buying and selling promissory notes, bills of exchange, accounts, choses in action, and of buying and selling real estate and personal property.

This company will erect during the summer and fall the new banking home of the Peoples National Bank and the Peoples Loan and Trust company, on the corner of Second and Main streets, now occupied by the bank and the drug store of Frank E. Wolcott.

Mrs. Charles Frazee underwent an operation for appendicitis Saturday at the sanatorium.

HONAN EXPLAINS NEW SCHOOL LAW

Attorney General Gives Official Opinion Clearing Doubtful Points in Recent Statute.

HE DEFINES USEFUL SERVICE

Child Between 14 and 16 is Permitted to be Out of School if Employed at Home.

In response to a request from the state superintendent of public instruction, Attorney General Honan, handed down an opinion on the compulsory education law to the effect that a pupil between the age of 14 to 16, who is employed at home, is engaged in "useful or gainful service." Any boy or girl between the ages mentioned, under the new law, must be in school unless employed in some gainful or useful service.

The attorney general also interprets the law to mean that the burden of obtaining a certificate of permission to work is upon the parents, and not upon the employer. In other words, if a child between the ages of 14 or 16 is employed, he must have a certificate from some executive officer of the school saying he is permitted to be so employed.

In response to the question whether a school for the teaching of book-keeping and subjects commonly described as business courses is a private school under the meaning of the act the attorney general answers in the negative. Such a school is not held a private school unless the branches required to be taught in the public schools also are taught in these so-called private schools.

The question of payment of attendance and probation officers in counties of less than 25,000 inhabitants also is answered. The law requires that the attendance officer shall be paid \$2 a day and the probation officer \$3 a day, and that in such counties as named the attendance officer also shall serve as probation officer. The opinion is that the attendance officer only does probation work by virtue of the fact that he is the attendance officer, and therefore is entitled only to the pay of an attendance officer.

Harriet Gardner has filed a partition suit against Robert Gardner et al.

Shopping Made Easy

There isn't much excuse nowadays for the woman or man who is "bored to death" by shopping.

Merchants no longer just "keep shop." They are live, progressive, alert, and energetic. There's high-powered efficiency on tap at most of the shops, large and small. Everything conceivable is being done for the information, convenience, and comfort of patrons. And it is the patron's own fault if he or she doesn't know where the choicest things may be purchased, where the best service is to be had, and where prices are the most reasonable.

Just read over carefully the crisp, instructive, up-to-the-minute announcements of every description contained in today's DAILY REPUBLICAN and you will readily understand how simple it is to find out where to shop and what to buy.

Pity the Unpainted House!

Would you go out in the pouring rain wearing your best clothes if you had no protection such as an umbrella or raincoat? Not if you could help it, you say.

Yet some people expose expensive material to the elements without adequate protection. The building material in your house is expensive and should be protected. Otherwise it will be ruined as surely as the fine clothes you wouldn't wish to wear out in the rain.

Dampness causes decay in wood-work. If you keep out the dampness you keep away decay. Paint made with

Eckstein White Lead

(Dutch Boy Trade Mark)
and Pure Linseed Oil

will keep away dampness and prevent decay.

We sell it. Come in and have a talk with us about painting.

B. F. MILLER

GREAT CAREER OF WHO AROSE

A Man of Strong Character,
but Kind and of Simple Tastes.

NOT long after the accession of Pope Pius X. one of his intimate friends declared, "He is the most human of all the popes."

That remark, justified by countless incidents brought to light since that time, affords a key to the character of the pontiff whose reign in many respects has been one of the most remarkable in the history of the church.

In the first few days of the reign of Pope Pius it became apparent that he would not conform to the rigid etiquette of the Vatican. He had been elected to the highest ecclesiastical office contrary to his expectations and wishes, and he disliked the formality which ages of precedent had imposed upon his station.

It is related that a delegation of monks of some order sought an audience with the pope. According to Vatican etiquette as observed by other pontiffs only cardinals were supposed to sit in the presence of the pope. And if his holiness invited one of lower rank to be seated the invitation was looked upon as a promise of a cardinalate.

Put Visitors at Ease.

As soon as the monks entered Pope Pius asked them to be seated. Knowing the rule of etiquette in such cases, they hesitated, hardly knowing what to do.

"You do not, I suppose, expect me to draw your chairs forward for you, do you?" inquired the pope good naturedly. The abashed monks then took their seats and proceeded to make known their wishes.

Before the pope's love of simplicity was thoroughly understood members of the papal court were somewhat shocked to observe that when his holiness wished to know the time he drew forth a small nickel watch attached to a little black cord. Haste was made to present the pontiff with a magnificent gold watch, supposed by the donors to be in keeping with the station of the pope.

To the amazement of the givers Pope Pius gently waved the gift aside.

"As long as I live," he said, "I shall wear my little nickel watch. It was a gift from my mother."

The dislike of his holiness for demonstrations at solemn functions was demonstrated in the winter of 1904. The pope had finished the celebration of a solemn pontificate at St. Peter's. As he was being raised on the portable throne, to be taken back to the Vatican palace, a crowd of enthusiasts started a demonstration in his honor. Forgetting his dignity for the moment, the pope, wearing his triple crown, promptly stopped the demonstration by gesticulating vigorously and crying: "Stop that! It is absolutely forbidden to applaud!"

Wouldn't Use an Automobile.

The European representative of a great American automobile concern once conceived the idea of associating the name of Pope Pius X. with certain things in the nature of advertising for the house. By some intelligent maneuvering the representative succeeded in getting into conversation with one of the superior prelates of the papal household.

This done, he discreetly announced that one of the company's finest high powered cars was at the pope's disposal for his trips through the Vatican gardens and that the firm would ask nothing but the pope's blessing in return.

The representative's hopes of obtaining some striking publicity were suddenly blasted, however, when Pope Pius cut short the negotiations by announcing that he did not consider a motorcar a vehicle becoming an ecclesiastic.

The great compassion and humanity of Pope Pius were illustrated by an incident that happened while he was patriarch of Venice. Only a few days after he had been elevated to that position, with the rank of cardinal, he met in the streets of Venice a young woman carrying a baby.

Helped Fallen Woman.

The young mother looked so weary and despondent that the patriarch stopped her and made inquiries. She told him, it is said, of having failed to find work and of having led a sinful life, no other way of supporting herself and her child being apparent to her.

Instantly the patriarch opened his purse and thrust several coins into the sobbing woman's hands.

"All mothers are good," he said, "and no queen is greater than a good mother."

The woman, it is related, knew by his garb that he was a priest, but was not aware that he was a prince of the church.

Joked About Name.

Giuseppe Sarto, the family name of Pope Pius X. once prompted the pontiff to make a joke. A visitor named Schneider had been shown into the

POPE PIUS X., FROM OBSCURITY

Great Questions Solved and
Tasks Performed During His Reign.

pope's chambers. After chatting awhile the pope smiled and remarked:

"You and I are brothers. Your name, 'Schneider' means 'tailor.' My name, 'Sarto,' means 'tailor.' Therefore we are brothers in name."

His humor was shown on another occasion when he was talking to a famous dentist monk of Rome.

"I should like to have you pull a tooth for me, but it is impossible," said the pope.

"Why is it impossible, holy father?" inquired the monk.

"Because," said the pope, "I have none left to pull."

Giuseppe Sarto was born June 2, 1835, in the village of Riese, in the diocese of Treviso, north of Venice. His parents were peasants, and his early life was necessarily burdened to some extent by poverty.

Often Knew Hunger.

Often he knew what it was to be hungry, but Beppo, as the child was familiarly called, would share with other lads, more hungry still, his food. Later, as he had expressed a desire to be a priest, he became a student of the Bishop's seminary at Padua. Here his warm, genial and sympathetic nature made him like the very sun in the college.

He always found time to help the poor and visit the sick. He was ordained two years before the canonical age. In his priesthood the only thing he neglected was his own ill fed and ill clothed body. His sister, who was his housekeeper and only servant, had to hide away his things under lock and key, and when the dinner was being prepared she dared not leave the kitchen lest the scanty meal should be spirited away to meet some case of poverty.

In spite of the hardships of his boyhood he loved the simplicity of rustic life, and that love was not displaced by all the grandeur of the Vatican. Reports frequently have come from the papal court to the effect that Pope Pius, surrounded by all the great art treasures of the Vatican, yielding influence over millions of people and receiving the homage of great people, including temporal rulers, still longed for the simple life of the village or of Venice.

Was a Pious Boy.

Giuseppe Sarto's mother saw while he was a very young boy that his inclinations were toward the priesthood. She let him plan his own career, however, but when he told her that he would go to the seminary and study for the priesthood, if he could be spared from the family, she took him up in her arms and declared that her secret prayers had been answered.

After studying awhile at the village school in Riese and under the direction of the local priest Giuseppe Sarto went to Treviso and entered the seminary. Nine years later, in 1858, he was ordained.

For the next nine years he was an assistant priest at the church of San Rafael, in the little town of Colombo. Here he entered into the lives of the people, sharing their joys and sorrows and working earnestly for the consolation and advancement of the poor. In his spare time he studied hard and sometimes wrote poetry.

Worked Among the Poor.

In May, 1867, he was appointed to the pastorate of St. Peter's church at Salcano. There he established a conference of the St. Vincent de Paul society, an organization for relief work among the poor, and the result of this work soon was felt through all Italy.

The administrative abilities of the pastor of St. Peter's church was recognized by the church authorities, and when he was forty years old he was made examiner of the clergy, chancellor of the diocese and spiritual director of the Salcano seminary. A year later he was made vicar general.

In 1884 he was given the episcopacy of the diocese of Mantua. There he continued to work indefatigably, especially among the poor. He walked through the streets and conversed with the people as freely as he had when he was only Father Sarto, parish priest. It has, indeed, been said of him, "He has always been a parish priest."

The necessity of finding a strong man to fill the important patriarchate of Venice came up for the consideration of Pope Leo XIII. in 1893. The Italian government notified the pope that it reserved the right to make the appointment, but the pontiff was firm and was permitted to make the selection. He chose Bishop Sarto of Mantua.

His Independence Manifested.

In a short time relations between the new cardinal and the Vatican became strained because the patriarch called on the king of Italy, who was visiting Venice. Cardinal Sarto, however, had his own ideas as to how to deal with any situation bearing on the so called disagreement between the Vatican and the Quirinal. His independence in this instance demonstrated his strength of character, so emphatically brought out later.

Cardinal Sarto became very popular

with the people of Venice. No other patriarch as far as could be remembered ever mingled with the people as he did. It was with the deepest sorrow that the populace received the news of their beloved patriarch's election as pope, notwithstanding their approval of the choice. Cardinal Sarto himself declared he would have preferred his patriarchate had the choice been left to him.

When Cardinal Sarto departed for the papal conclave in 1903 nothing was further from his mind than the thought that he would be elected successor to Pope Leo XIII. He bought a return ticket to Venice and seemed to be intent on hastening home as soon as he had done his part of the work at Rome.

He was elected Aug. 4, after several days of balloting, during which he steadily gained in favor as a compromise candidate, agreed on by two apparent factions which then seemed to be at variance on certain points. But it is said Cardinal Sarto, of all the delegates, did not foresee the final result of the voting until his election was assured by the two-thirds vote.

The announcement of his election was followed by a most dramatic scene. The new pope walked weakly toward the altar. His face was pale, and he tottered as if about to fall. Several cardinals went to his support.

"It is a cross that I receive from you," were the first words of the man who had unexpectedly had the highest honor in the church thrust upon him.

Assumed Heavy Duties.

The news that the lowly Father Sarto, he of the frugal habits and the simple tastes, had been chosen pope brought forth a great demonstration. The bells of all the churches in Rome were rung, and all the rulers of the world called their congratulations.

In a short time came rumors that the new pope would abdicate because of his unwillingness to be the "voluntary prisoner" of the Vatican and also because his health seemed to be declining. But, while it is true that he had pleaded to be excused from the honor, it is also a fact that he did not shrink from his heavy duties once he had assumed the office.

One of the most important things accomplished during his reign is the codification of the canon law, the great body of jurisprudence by which the Catholic church is governed. Earlier popes had tried to simplify the great mass of disjointed and sometimes seemingly contradictory laws, but little progress had been made. Even the energetic Pope Leo XIII. declared the task was so great he could not undertake it.

Pope Pius put experts to work and personally supervised their labors, now and then issuing pronouncements dealing with the principal points covered by the codifications. In spite of the difficulty of the task, at the end of six years the greater part of the work was done.

Another momentous situation which Pope Pius dealt with in a powerful fashion was the rise of so called "modernism" in the church in Europe. His encyclical of Sept. 8, 1907, in which he condemned modernism as "a synthesis of all errors," has been pronounced the most sweeping and far-reaching that has come from the holy see in many decades. Another encyclical against modernism was issued by Pope Pius in 1910.

Recently Selected Tomb.

Pope Pius recently selected his burial place and gave directions for the construction of his tomb. He let it be known that he wished to be buried in the crypt of St. Peter's and also that he desired the body of Pope Leo XIII. to remain there, although a tomb for its reception had been prepared at St. John Lateran's. If this desire is observed there will be no chance of an outbreak of mob violence, such as attended the removal of the body of Pope Pius IX. in 1878.

The tomb planned by Pius X. is simply a recess in the wall of the crypt, and it is being made large enough for the reception of a coffin. The recess after the latter has been put in place will be sealed by a simple slab of white marble upon which the name of his holiness and his holy offices will be carved.

The crypts occupy a space under the nave of the modern basilica and portions of them formed the crypt of the ancient church. Little change has been made through all the years. In these crypts are the tombs of several popes and a number of important personages.

Few people have been through the crypts, which are carefully guarded. Though some of the earlier popes were buried in the catacombs, it was not until the time of Leo I. that St. Peter's became recognized as a place of burial for the popes.

Old Tombs Destroyed.

Originally they were buried in the forecourt only, but later on the tombs were made in the interior. Unfortunately, some of the oldest tombs have been destroyed, but there still remain a number of ancient monuments. Most of the early popes had monuments in the old basilica, but several were removed to other churches in the city, and a few were interred in churches and chapels founded by their families.

The greater number of popes buried in the crypts are laid in the north aisle, where is the sarcophagus of Boniface VIII., with his recumbent statue. On the head of the statue is the tiara, with the double ring of gold, first used by him.

The tombs of Popes Pius II. and Pius III., whose monuments were removed to St. Andrea della Valle, are also there, and next to them is the tomb of the only English pope, Adrian IV., whose tomb is in red granite, with sculptured bulls' heads.

KANSAS CITIZENS FACE "BUG CALL"

Forgotten Law May Soon Be
Invoked.

CROPS ARE THREATENED.

Every Citizen Between the Ages of Twelve and Sixty-five Years May Be Called Out to Fight Pests—City Residents Also Subject to Law, but May Be Excused.

An old, forgotten law, enacted by a Kansas legislature at a time of great need and never used, is to be called into action after lying dormant in the statute books more than a third of a century. It is the old "warning out" law, made to fight the grasshoppers after the disastrous raids of the locusts in the early seventies.

There never has been a time when it was needed heretofore, but Governor George H. Hodges has been petitioned to invoke its use in central Kansas to fight the chinch bugs, which threaten to do great damage to growing crops this year.

Under this law every man, woman and child between the ages of twelve and sixty-five years of age may be called out to fight the bugs. The entire state may be included, although it is probable only a small part of the great wheat growing section of the state may be made into the "warned out" district. Refusal to answer the summons will send the culprit to jail and assess a fine of \$3 a day and the court costs.

Bugs Destroy \$10,000,000.

The farm experts at the Kansas Agricultural college have been making an investigation of the chinch bugs and have found the crops of 1912 were damaged to the extent of \$10,000,000. The college has asked the governor to invoke the warning out law for the purpose of avoiding equal or greater damage to the 1913-14 crops.

J. W. McCullough, assistant in charge of chinch bug extermination at the college, wrote to former Governor Stubbs as follows:

"I would like to suggest that you issue a proclamation calling on the people of Kansas for a certain date to join in a general campaign against the bugs. Many farmers are already burning their grass, but the work is not general and lacks co-operation. 'Fall and winter burning has been thoroughly tested by the agricultural college, and it has found that on an average 98 per cent of the bugs are destroyed, and the crops are uninjured the following year. The only requisite to make burning a success is to make it thorough.'

Governor Stubbs did not act on the matter, but left it for his successor, Governor Hodges.

Grasshopper Peril Caused Law.

The warning out law was enacted by the legislature of 1877 and is known as chapters 119 and 120 of the session laws of 1877. The law provides that when the township or county officials or the governor believe there is imminent danger of a visit of grasshoppers or other noxious insects all the inhabitants, both of the cities and the country districts, may be warned out by the governor's proclamation or by orders of the township or county boards.

The order may affect the whole state, one or a dozen counties or only a single township.

When the warning out notice is posted it must show the tools and implements of warfare to be used in the campaign. Each person from twelve to sixty-five years of age must provide himself with the necessary tools and meet at a designated place to begin the battle.

May Exempt City Residents.

The campaign is to be carried on according to a general plan for the entire township or county and under the direction of the local officers.

It is not likely that residents of Kansas cities will be called out to fight the chinch bugs. The warfare is to be carried on by burning, and there are sufficient farmers to do the work. Under the law the residents of the cities may be called out and compelled to fight the insects the same as the farmers.

WATER AIR SPORT POPULAR.

Many Orders Given For Hydroaeroplanes In Chicago.

Flying hydroaeroplanes is a water sport that probably will have a number of followers along the lake shore in Chicago this summer. Half a dozen of the air water craft have been ordered for delivery early in the summer to sportsmen of that city.

The waters of Lake Michigan usually are placid enough for the machines, and elimination of danger, with promised speed of from sixty to seventy miles an hour, has attracted wealthy yachtsmen to give the new game a trial.

World's Longest Tunnel.

The Canadian Pacific railway will begin construction shortly of the longest tunnel yet. The tunnel will be built through Kicking Horse pass, in the Rocky mountains, will be sixteen miles long and will cost \$14,000,000. It will take seven years, it is estimated, to build it.

Mrs. Sweet — "Is it a darling baby — and does it love its bath and its soft, woolly little shirts and socks?"
Anty Drudge — "Yes, it's a darling baby, with a sensible little mother. I can see by the looks of those little woolens that you use Fels - Naptha Soap."

Baby's soft, woolly little socks and shirts can be kept soft and woolly if you wash them with Fels - Naptha Soap.

Hot water and ordinary soap have spoiled lots of pretty clothes. Fels - Naptha Soap doesn't, because it's different. It's different because it's better. It's better because it does its own work and yours too, and does it in cool or lukewarm water, with no hard rubbing.

PIANO TUNING
D. E. ROBERTS
16 Years Practical Experience
In Rushville Once Each Month
Headquarters at
Abercrombie's Jewelry Store

DR. W. R. MAYO
SPECIALIST
715 N. Alabama St.
Indianapolis, Ind.
Will be at
Rushville, Indiana.
GRAND HOTEL
TUESDAY MAY 6, 1913.
And Every Four Weeks Thereafter.

Lung Trouble and Catarrh have been successfully treated by his **INHALATION METHOD**. By this method the oils are applied directly to the diseased parts.

HYDRCELE and VARICOLE by one treatment has effected cures in several cases. Dr. Mayo has treated successfully Blood Poison, Skin Disease, Kidney, Bladder, Prostatic Troubles, Piles and Fistula.

Dr. Mayo has treated a number of cases of **CANCER** without the knife.

CANCERS AND TUMORS HAVE BEEN TREATED WITHOUT THE KNIFE.

Dr. Mayo has treated successfully all forms of chronic diseases that are curable, such as diseases of the Brain, Heart, Lungs, Throat, Eye, and Ear, Stomach, Liver, Kidneys, Bladder, Blood Poison, Rectum, Female Disease, Impotency, Seminal Emissions, Nervous Disease, Catarrh, Piles, Stricture, Eczema, Varicole, Hydrocele, etc.

If afflicted with any of the ailments constituting my specialty, you can come to me knowing that I have treated many cases like your own and many others very similar with satisfactory results.

After examination I tell you just what I can do for you. If I can not benefit or cure you I frankly and honestly tell you so. Write for examination and question blank.

SUFFRAGE PRAIRIE SCHOONER.

Tour of New York State In Ancient Vehicle Planned.
A prairie schooner such as figured in the rush to the gold fields in 1849 will have a prominent place in the May suffrage parade in New York, after which it will tour the state, starting from the state suffrage headquarters. The sides of the schooner will be decorated with slogans to this import:
"Suffrage or bust in 1915."
Certain antis, with some pleasure, are recalling that the schooner which started for the gold fields bearing the device, "California or bust," ultimately hit the homeward trail with the caption changed to "Busted, by thunder!"
The schooner is being built under the direction of Frank Nelson of Rochester, who is an old time prospector.

SHOWS JOB HUNTER THE DOOR

President Wilson Squelches Man Who Ignored Rule.
That "no office seekers need apply," which President Wilson hung on the White House fence March 5, still is in force a candidate for a governmental post learned to his sorrow recently. He was received personally by the president and after a bit of general conversation diplomatically broached the subject of his ambition for office. The president congealed in his particularly effective way of congealing. "You have forgotten the rule," he observed distantly. "Good afternoon."

A Sad Condition.
"Yes," said Bildad, settling back comfortably in his chair. "I must confess that I've got about everything I want."
"Poor chap!" said Dubbleigh sympathetically. "Not a thing left to look forward to, eh?"—Harper's Weekly.

Scientific.
A scientist figures that the earth is shrinking about two inches a year. This may account for the anxiety of some people to possess it while it is of some size.—New Orleans Picayune.

A Well Mated Pair.
Manager—I am looking for a man I can trust. Applicant—And I'm looking for a man who will trust me. We ought to get along fine.—Boston Transcript.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Rushville People Know How to Save it.
Many Rushville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Rushville citizen's recommendation.
Mrs. Ella Endicott, 125 S. Harrison St., Rushville, Ind., says: "We have used Doan's Kidney Pills in our family with good results. A member of the family suffered from severe pains through his back and had difficulty in straightening after stooping. His kidneys were also irregular in action. Finally he used Doan's Kidney Pills and they corrected the troubles."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.
(Advertisement.)

NOT MUCH TAKEN WITH THAT CURE

Friedmann Experiments Have Not Made a Hit.

ADVERSE REPORTS ARE HEARD

New York Physicians Who Have Been Watching Developments in Connection With Much Vaunted New Serum "Cure" For Consumption, Say It Is Time For the Public to See the Matter in a New Light.
New York, May 5.—It is declared the Friedmann patients are not doing well; in fact some of them are doing very ill. This fact combined with the knowledge of the nature of the sale of his "cure" Dr. Friedmann has recently accomplished, has made all the medical men connected with the Friedmann tests anxious not only for their own patients, but for the welfare of the public in general.
Before the week is out it is most probable that three and perhaps four public statements will be made from public institutions, none of which will be favorable to Dr. Friedmann or his treatment.
The men who are the head of several hospitals where Dr. Friedmann has made his tests for the government have felt for some time that the public ought to "see the matter in a new light," as one man put it. Information has been placed in the hands of the health department telling of the poor showing of the Friedmann patients. As the result of this information it is only a matter of time before the board of health will make public its first report on the Friedmann case. It is understood that it will go into minute details, giving the history and progress of each case.
At Bellevue hospital many of the pulmonary sufferers treated by Dr. Friedmann at first showed gains, such as increased weight, but have since fallen back. The actual condition of the lungs has either remained the same or become worse.
Because of this information which has been circulating among the medical men interested, there is now a strong feeling that some definite stand should be taken by them before the various Friedmann institutes are opened to the public.
The information was obtained from the head of one of the local hospitals that a patient who came here from Michigan with her doctor for the Friedmann treatment was told by someone who represented the doctor that the injection could be arranged for if \$5,000 in cash were paid over in advance. That caused the physician in the case to make investigations about the various hospitals, with the result that he advised against the treatment.

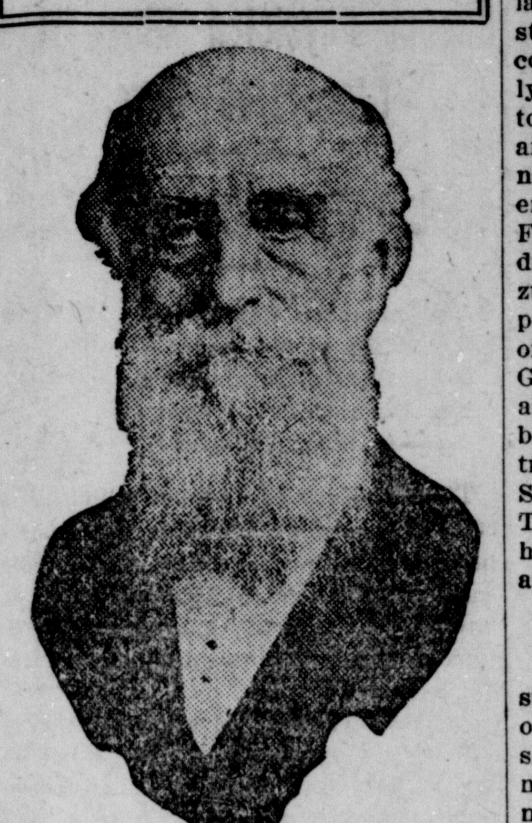

AN INDIANA TOWN SUFFERS

Sunday Blaze in Sheridan Causes a Loss of \$150,000.
Sheridan, Ind., May 5.—Fire which started in the yards of the Weaver Lumber company here Sunday spread until two blocks of business houses were destroyed, entailing a loss estimated at \$150,000, distributed among a score or more of property owners. Included in the loss was the Methodist church and adjoining parsonage. The office of the town board was in the path of the flames and nearly all the official records were destroyed.
City Records and Mail Burned.
Knightsville, Ind., May 5.—Fire destroyed several business houses here, causing a total loss of \$10,000. The town hall was destroyed, and all the records burned with it. The postoffice was burned and only one sack of mail was saved.
A \$40,000 Blaze.
Peru, Ind., May 5.—Fire in the paint shop of the Chesapeake & Ohio Railway company here caused a loss of \$40,000. The paint shop was destroyed, with all its contents, together with a score or more of freight cars.

SUSPENDED CONSTITUTION

California Legislators Do This to Jam Anti-Jap Bill Through.
Sacramento, Cal., May 5.—With the passage of the alien land bill by the assembly, the California state administration gave the finishing touch to its defiance of President Wilson and his suggestions. The Webb-Birdsall bill which permits leasing land to aliens for three years, was the measure finally adopted.
The unusual procedure of a bill passing the senate and being read three times in the assembly in the same day was carried out. It necessitated the suspension of the California constitution to accomplish the feat, but it was done under the whip. The bill will allow the occupation of land by Japanese under the three-year lease provision for an unlimited time, by transferring leases every three years.
The governor has telegraphed a verified copy of the bill to President Wilson, and he will not sign it for the present. Governor Johnson said: "I promised President Wilson and Secretary Bryan I would grant them a reasonable time in which to offer whatever objections they may care to make."

DR. LYMAN ABBOTT
Well Known Publicist Ousted From American Peace Society.

New York, May 5.—Dr. Lyman Abbott, editor of the Outlook, has been ousted from the American Peace society because of certain articles that have appeared in his magazine. He does not appear very much concerned about the matter.

THE CENTENARY OF THE TREATY OF GHENT

Fitting Celebration Is Being Arranged.

New York, May 5.—From England, Canada, Australia and the city of Ghent the nineteen delegates who are to co-operate with an American committee in arranging a program for the celebration of the centenary of the treaty of Ghent and one hundred years of peace among English-speaking nations, have arrived from Europe. Mayor Gaynor welcomed them at the city hall at 10:30 o'clock this morning, the pilgrims gave the visitors a luncheon at the Waldorf, and conferences began at the Plaza at 3 o'clock this afternoon.
They were met by members of the American reception committee, of which William Church Osborne is chairman. The chairman of the English deputation is Lord Weardale, formerly the Hon. Philip Stanhope, M. P., and for years a leading advocate of international arbitration.
When it was suggested to Lord Weardale that a few suspicious persons have been hinting that there are hidden motives behind this week's peace conference, he hastened to say that it was not true.
"There is no hidden motive. We have come here with the particular purpose which has been specified, namely, to arrange with the Canadian and American committees the method of celebrating one hundred years of peace," said Lord Weardale.
Discussion of diplomatic matters was no part of the conference, Lord Weardale said, but his own opinion was that the matter of Panama tolls ought to be settled by the "ordinary methods of conciliation and toleration."
The celebration which is to be planned will take place in 1914.

TERSE TELEGRAMS

The New York legislature has adjourned sine die.
Two German army officers were killed in an aviation accident at Darmstadt.
Governor Sulzer has appointed Herman Ridder to be superintendent of New York's state prisons.
The Crawford Locomotive and Car company is preparing to move its plant from Streator, Ill., to Indianapolis.
President Huerta of Mexico has been formally notified of the recognition of his government by Great Britain.
The anti-suffragists say that, including the bands, there were just 9,613 persons in New York suffragists' parade Saturday.
Four persons were drowned when the river steamer Sonoma sank at Glenmary, Ky., while an effort was being made to land the boat.
The Haitian congress has elected Senator Michel Oreste president of the republic to succeed General Tancrede Auguste, who died last Friday.
Sir Tatton Sykes, one of the most prominent characters in English country life, and the best known breeder of race horses of the century, is dead at the age of eighty-seven.
The corresponding secretaries of the Woman's Foreign Missionary society of the Methodist Episcopal church will meet at Indianapolis from May 8 to 15 for the semi-annual conference.

Pet Colors For Flags.
Has it ever struck you which color is most often seen in the flags of the world? Probably it hasn't, because there are not many people who can recognize more than half a dozen flags at the outside. Well, the most popular color is red, which is found in the standards of no fewer than nineteen countries out of twenty-five. Practically every one of the European states, together with Mexico, Venezuela, Chile and Cuba, boasts the color red in their national flags. Blue is found in the emblems of the United States, Russia, France, Great Britain, Holland, Ecuador, Sweden, Chile, Portugal, Venezuela and Cuba. Black is not at all popular, being found only in the cases of Germany, Belgium and China, while Germany is noticeable for having black and white together. Nine countries boast of a flag partly yellow—viz, Austria, Spain, Belgium, Brazil, Persia, Sweden, Egypt, China and Venezuela. To Ecuador belongs the distinction of having a standard nearer white than any other country.—New York Post.

Thrilling Balloon Experience.
Probably no aeronauts have ever survived to tell such a thrilling story of their experiences as Messrs. Glaisher and Coxwell when, in 1862, they made their record ascent of seven miles. When the balloon had reached a height of 29,000 feet Mr. Glaisher records, "I dimly saw Mr. Coxwell in the ring and endeavored to speak, but could not, when in an instant intense black darkness came, and I suddenly became unconscious." Mr. Coxwell himself was on the point of succumbing to the intense cold. The hoar frost was all around the neck of the balloon, his hands were frozen and powerless, and as the balloon was still rising swiftly death seemed inevitable to both aeronauts. Mr. Coxwell despaired of opening the valve to release the gas. Insensibility was rapidly coming over him, and it was only "at the last gasp" that by a happy inspiration he seized the cord with his teeth and "dipped his head two or three times until the balloon took a decided turn downward."

As the Crow Flies.

Mandy—Yessah. After de shot was fired mah Rastus dun run seben blocks as de crow flies. Judge—As the crow flies? Mandy—Yessah. All yo' could see was jes' one black streak.—Puck.

A Thoughtful Name.

Value of Research.

It is only about twenty-five years since Congress passed the Hatch act founding the system of agricultural experiment stations in this country. The annual federal grant to each state is now \$30,000, to which the states themselves have in many cases added. Those less familiar with the work often think of it solely as an attempt to further the interests of the practical farmer. The institutions were founded "to promote scientific investigation and experiment respecting the principles and applications of agricultural science;" but the scope of the work now extends far beyond the boundaries of the farm. The lessons of this imposing movement in agricultural research and education are manifold. The American experiment stations have demonstrated the solidarity of the different sciences. Their successes have taught the important lesson that no one can foretell what beneficial results may develop from highly specialized researches, and they have fostered a spirit of popular interest in the progress of science quite beyond anything that could have been expected two decades ago, when empiricism still reigned supreme and distrust of the utility of scientific investigation was widespread. As an illustration of the value of this work, The Journal of the American Medical Association comments on the recent report of the Wisconsin Agricultural Experiment Station, which now has forty or more problems under investigation, covering such questions as the effect on nutrition of animals and man of a single plant ration, the mineral needs of animals, the methods of ripening cheese, the improvement of market milk and the causes and prevention of animal disease. The quiet modest labors and persistent patience in the field and the laboratory of these untiring workers are doing as much for the welfare of the state as are efforts of those who shine conspicuously in the legislative halls.

SIMILAR MARCH 8 YEARS AGO

4th Infantry Battalion went Through
Here in 1905.

Two battalions of the Ninth Infantry stationed at Ft. Thomas, Ky., near Cincinnati, will leave that post May 19, for a practice march across Indiana to Fort Benjamin Harrison. The route, while not definitely fixed, says the Indianapolis News probably will be along the Cincinnati, Brookville and Indianapolis pike, one of the principal points enroute being Rushville, where the troops will camp May 23. It is expected the two battalions will reach Ft. Harrison on May 29 and remain there for a period of work in the field. A battalion of the Fourth infantry made a similar march from Ft. Thomas to Indianapolis eight years ago.

ARE GOING FULL TILT NOW

Protracted Services at the First Baptist Church.

"Every Man Minded His Own Business" is the subject of the sermon to be delivered tonight by the Rev. Luke Williams, the evangelist, who is conducting a series of revival meetings at the First Baptist church. The Rev. Mr. Williams preached three times yesterday and had a crowded audience last night. His subject last night was "Love." The services will begin each evening at seven-thirty o'clock. A cordial invitation is extended to everyone. The evangelist spoke yesterday afternoon when several converts to the Ninth Street Baptist church were baptized near the cemetery bridge.

TO FORM SCHOOL LEAGUE

Managers May Get Together at Meeting Wednesday Night.

A meeting of the representatives of the baseball teams of the various Sunday schools will be held at the First Presbyterian parlors Wednesday evening at seven-thirty o'clock to perfect the organization of a Sunday school league for the summer. The organization hinges on one contingency: whether a suitable weekly playing date can be arranged for. At the same meeting the First Presbyterian ball team will be organized. The Methodists and the Christians have already elected captains and managers and are ready to play. Any one interested in the proposed league is invited to attend.

Amusements

The Palace will show a Mutual Weekly for the first picture tonight. It shows many events of interest taking place in the whole world. The other is a comedy entitled "The Professor's Daughter."

"Dr. Maxwell's Experiment" is the title of the first picture at the Princess tonight. It is a Lubin comedy drama and is said to be a feature production. The other is a Selig drama, "The Understudy." It is a story of the stage.

Your hair falling? Try the new Electric Singe at Norris' Barber Shop. 42t6

Wanted the Record.

A taxicab caught fire in New York. The flames reached the gasoline tank. The two passengers, who had come a long way, tumbled out. The fire department was summoned. "Play on the meter!" shrieked the distracted driver to the firemen. "Never mind the cab, play on the meter!"—Exchange.

Larger Wants.

"Does your wife want the vote?" "No. She wants a larger town house, a villa on the seacoast and a new limousine car every six months. I'd be pleased most to death if she could fix her attention on a small matter like the vote."—Washington Star.

Your hair falling? Try the new Electric Singe at Norris' Barber Shop. 42t6

REPORTS FINDING
A CANCER SERUM

Boston Physician May Have
Discovered Cure.

WILL TREAT HUMANS SOON.

Experiments on Rabbits Indicate That the Poison of Malignant Tumors Can Be Destroyed, Discoverer Says—Positive Cure Not Yet Promised, However—Methods Explained.

The discovery of a serum which kills cancer poison and which, physicians believe, may prove to be a cure for cancer has been announced by Dr. Howard W. Newell, instructor of pathology at the Boston university school of medicine.

At the seventy-third annual meeting of the Massachusetts Homeopathic Medical society, which took place recently, Dr. Newell announced his discovery. The announcement followed three years of research work, he said.

What he has found, he explained, is a chemical process for the extraction of poison from a malignant tumor in man and with this poison obtaining from rabbits a serum which when mixed with the original serum in the proper proportions wholly nullifies the poisonous properties of the tumor extract.

Will Experiment on Humans.

Dr. Newell soon will experiment on cases of cancer in human beings. Every patient to be inoculated with his serum must first have been declared by a committee of five surgeons to be a victim of cancer.

Dr. Newell describes how, from cases of operable tumor where a diagnosis of cancer (carcinoma) had been positively established by clinical and by microscopical findings, the freshly extirpated malignant growth was freed from fat and extraneous tissue, cut into small pieces, boiled for several hours in water and then filtered and how the filtrate was acidified and boiled and filtered again to remove the proteins.

"This filtrate," said he, "was exactly neutralized and the solution was evaporated on the water bath to a sirupy consistency. This sirup was carefully extracted with pure alcohol, and the extract after the removal of the alcohol by distillation was repeatedly treated with ether. The residue, insoluble in the ether, was then dissolved in water, and the solution was rendered strongly acid and again thoroughly extracted with ether.

"This time the etherial extracts were collected, the solvent removed by distillation, and the final residues again were dissolved in water. The aqueous solution was rendered alkaline, boiled for half an hour and again filtered. On the spontaneous evaporation of the filtrate long, white, needle shaped crystals separated, and these were purified by repeated recrystallization in water.

"These crystals in their purified form are the basis of the subsequent investigations," he said.

Experiments on Rabbits.

"While up to the present the exact chemical nature of the active tumor extract is not known, its capacity to produce anti-bodies could be studied experimentally to advantage. To this end a series of immunization experiments were undertaken with healthy adult rabbits.

"These were used with one-tenth of a cubic centimeter of the tumor solution. Ten days later an immunizing dose of ten milligrams of the active substance formed in the body of the guinea pigs was given. Ten days later a second solution was used. This dose had been sufficient to kill nonimmunized rabbits in twelve hours. Three more immunizing doses were given at ten day intervals. In a period of fifty days the animals received sixty-four milligrams of the toxic substance, divided into six doses.

Hope Cure May Be Found.

"The serum from these rabbits when mixed with the original tumor solution in the proportion of ninety-nine parts of solution to one part serum completely immunized all other rabbits and guinea pigs from the action of the original solution, though double the death dealing dose was administered in every experiment.

"The serum from the animals immunized contains a substance or mixture of substances which possesses the power of antagonizing the toxic action of the tumor substance. This has been demonstrated by use of the serum either previous to or simultaneous with that of the tumor poison. In both events no effect is observed from quantities of the poison which if used alone would produce a rapidly fatal intoxication.

"With the simultaneous use of poison and anti-body it has been shown that one part of the latter will effectually antagonize ninety-nine parts of the former."

Funds For Polar Expedition.

The National Geographic society, with headquarters at Washington, has voted \$20,000 toward the cost of the scientific north polar expedition which will leave the Pacific coast under the command of Captain Roald Amundsen in June, 1914, to explore the polar basin.

LEAVE ON A LONG TRIP

Mr. and Mrs. A. W. Jamieson Leave
For Pittsburgh This Evening.

The Rev. and Mrs. A. W. Jamieson will leave this evening on an extended visit through the East. They will first stop at Pittsburgh, Pa., where they will visit a few days. From there Mrs. Jamieson will go to Washington, Pa., to attend a missionary convention. She will not return home before going to Monmouth, Ill., to attend the commencement exercises of Monmouth college, where her daughter, Miss Mary Belle, will be graduated. Dr. Jamieson will go to Washington, D. C., from Pittsburgh to attend the meeting of a committee on missions and from there to Atlanta, Georgia, to be present at the General Assembly of the United Presbyterian church, which convenes May fourteenth.

THE EASIEST WAY

The easiest way to tell a ringer is to watch him work; the easiest way to tell a four-flusher is to try him out; the easiest way to tell a man who talks through his hat is to let him talk himself to death.

Lots of men can put up a front; few of them can keep it up.

A plated fork looks fine when it is new, but use it and the base metal will soon show through.

Lots of glass diamonds look fine at first glance, but familiarity will dim the lustre in your eye.

If you want to prove a thing, try it. If it stands the test, hang on to it.

When you get a good thing, keep it. Shoes come in the same class, lots of leathers look great to the naked eye.

Try a microscope.

Lots of them make a fine impression at first.

But how will they stand the wear? You are safe if you buy them of Cox, the shoe man. 45t6

WANTED—three first class painters.

HOGSETT'S STORE

Several Reasons Why You Should
Buy Your Next Buggy From Us

First:—We keep the most complete stock of buggies in Rush Co. and you have more to make a selection from. Second:—We guarantee every buggy we sell and if any thing goes wrong with one of them it is promptly fixed and no rag chewing about it. We are just as anxious to fix a buggy when it goes wrong as we are to sell it to you in the first place. Third:—We always show the new styles far in advance of our competitors. Fourth:—We buy a large number of buggies at a time and by doing this we buy them at a price that enables us to sell you a buggy cheaper than the small buyer. And last but not least we want your business, and if you give us a chance we are going to give you the kind of buggies and the kind of treatment that will make you one of our satisfied customers. We have just received a car of buggies of the latest style and they are different from anything you have ever looked at and we want you to see them. Think this proposition over and when you get ready to buy a buggy, come in and see what we can do for you.

Mrs. Donnan Finishes Series of Lectures

Mrs. May W. Donnan of Indianapolis finished her series of lectures to her study class Saturday afternoon. She spoke first of the annual convention of the Drama League of America, which she attended in Chicago last week and discussed several of the interesting lectures of the convention; notably Prof. Alden's plea for the poetic drama and Mr. Clayton Hamilton's plea for the modern prose realistic drama. Some points adduced from these lectures led to a review of George Middleton's one act plays. The one act play, Mrs. Donnan said, is very popular in England, and critics see a great future for it. It deals with some interesting modern situations, is merely a slice out of life that "implies what is past, exhibits the present and indicates the future."

Mrs. Donnan prophesied that no book of the year will be more discussed by literary people than Henry James' "A Small Boy and Others." Mr. James presents his recollections of his boyhood and those fragments of it that have remained with him through his long and active life. Charming, too, is Alfred Noyes' poetic "Tales of the Mermaid Tavern," containing imaginative reminiscences of Sir Walter Raleigh, Shakespeare, Ben Johnson, Spencer and others. Mrs. Donnan concluded her lecture with a summary of the subjects she had discussed during the term. Each of the Shakespeare lectures has been preceded by talk on new books and interesting miscellaneous subjects. This feature of Mrs. Donnan's lectures alone bespeaks untiring industry and conscientious effort to put before her class all that the literary world is taking account of. Over and above the interest and individual value of each lecture the series has a general importance as emphasizing the really human usefulness of all classical studies. Mrs. Donnan has attempted no technical analysis of Shakespeare's plays, being concerned, rather with the elemental themes that engaged the mind of the great poet and dramatist. Modern thought and modern interpretation, as Mrs. Donnan's lectures show, have made Shakespeare human to the age we live in. His plays are rooted in the sacred facts of life and in their various ways impress upon us and illustrate the perennially suggestive truth of "the antiquity of human nature."

Mrs. Donnan is skillful and resourceful in the presentation of her subjects and her lectures have an energy and directness that mark them as the spontaneous utterances of one who thinks deeply and feels strongly, and in consequence she is always stimulating and her hearers carry away much more than the meagre subject.

Mrs. Donnan will go to Europe this month for her usual summer of study and rest.

Society News

The Ladies Aid Society of the St. Paul M. E. church will be entertained by Mrs. Charles Hugo and Mrs. Charles Baker at the home of Mrs. Hugo, corner of Morgan and Tenth streets, tomorrow afternoon.

Mr. and Mrs. John C. Blackledge have issued invitations for the marriage of their daughter, Miss Ethel, to Mark Dennis of Indianapolis, the wedding to take place at the Social club on the evening of May 21.

DICK WILSON'S HORSES ARRIVE

Appearance of California String at State Fair Ground Track Causes a Lot of Stir.

SUCCESSFUL ON THE COAST

Other Good Prospects Owned in the Middle West Will be Added to His String Shortly.

Dick Wilson's string of horses arrived from his quarters in Pleaston, California, at the state fair ground track in Indianapolis, which has caused a lot of talk among the wise boys who are telling just what each prospect is going to do this summer. Mr. Wilson is here visiting former friends, but will soon be actively engaged in getting his horses in shape for the big shows.

Mr. Wilson and son William, who left here a few years ago for the Pacific coast, have some excellent prospects with them. ones good enough to enter in the early Grand Circuit meetings, although it is probable that Dick will turn to the Great Western Circuit after the big line heads for the East.

While on the coast Wilson and his son William were very successful in their racing ventures and won a very large number of good races. The result of his success there was that some of the more ambitious owners wished Wilson to take their horses to the big line for a season in high-class company, having cleaned up a portion of the good ones in California and Oregon. Dick and his son have held a continuous reception since their arrival and have had to tell the details of the trotting industry in California to scores of their friends.

The fastest record performer that Wilson brought with him was Maurice S., 2:06, by King S., a pacing gelding that Wilson raced very successfully last year. During the season this horse started in ten races, of which he won six, was once second, once third and twice fourth. His record was made in the second heat of a winning race at Fresno, and from the reports that came East at the time it is evident that the Californians think a great deal of this pacer and believe that he will be able to hold his own in any company.

Another that looks like a chancy candidate for fast honors is the 5-year-old pacer mare, Little Lucile, 2:09, by Palo King. This mare took her record as a 3-year-old, but last year no attempt was made to use her as it was thought that a let-up would do her good as she will have to race hard and fast in the class to which she is now eligible.

Wilson's other record horses include Kid Wilkes, 2:09½, by Stanton Wilkes; Ruby Light, 2:11¼, by Aerolite and Lucile Wilson, 2:17¼, by the Patchen Boy. He has a green trotter called Maxwood Simmons by Bob Fitzsimmons, that he touted as being able to shade 2:10 several seconds. In addition to the California horses Dick will have several added to his stable very shortly that are owned in the middle West.

In the height of the Mississippi river floods, last year, the flow was 2,300,000 cubic feet a second, or twelve times the amount of water that passes over Niagara falls.

AIM TO SECURE FIRE REDUCTION

Object of New Department of State.

FIRE MARSHAL A BUSY MAN

William E. Longley, Appointed by the Governor as Head of New Bureau Created by the Late Legislature, is Getting His Office in Shape to Tackle a Problem Which Affects in a Most Important Manner Indiana People.

Indianapolis, May 5.—In the office of the state fire marshal the work of reducing Indiana's tremendous fire losses has been definitely begun. William E. Longley of Noblesville, appointed by Governor Ralston, has assumed the duties of this new office—established by the last general assembly.

While much time has been spent in devising the proper forms for the tabulation of records and in otherwise organizing the work, the actual work of preventing fires already has begun. Certain inspections, resulting from reports of hazardous conditions in various cities in the state, have been made and are being made. And likewise cases of supposed incendiarism have already been investigated. In the main, however, the efforts of Fire Marshal Longley and his deputies have been directed toward organization of the department for the work that is to be done. John W. Minor, jr., has been named as first deputy, and Roger W. Wallace as second deputy. Mr. Minor will devote his attention largely to inspections and investigations in the state. Mr. Wallace is an attorney and, in addition to other duties, will participate in the legal duties which may develop in the course of enforcing the law. Ralph E. Richman is secretary in the fire marshal's office.

One task of no mean proportions is that of acquainting township trustees, clerks of town boards and fire chiefs throughout Indiana with the fact that the new law makes them assistants to the state fire marshal. It is the duty of these assistants to report promptly to the state fire marshal the origin and circumstances of every fire in their territory, and so far as possible, to determine whether the fire was the result of carelessness or design. Forms, instructions and a copy of the law are being forwarded by the fire marshal to each of these hundreds of men who are to serve as his assistants. Mr. Longley also proposes to seek the co-operation of the newspapers in obtaining the co-operation of the public in preventing fires and thus reducing an enormous fire loss which is annually sustained in this state.

There is at present no information upon which to estimate accurately the number of fires occurring annually in Indiana, nor yet of knowing the full extent of the yearly fire loss. An unofficial record for seven days in April, however, showed seventy-five fires in the state, with an estimated loss of \$102,700. At this rate there would be 3,900 fires and a loss of \$5,340,400 in one year in Indiana. The system of inspections throughout the state will discover and eliminate "fire traps" and all conditions conducive to fires. It will bring about, also, better conditions in the storage, sale and use of combustibles and explosives. It will result, when deemed necessary, in the installation of automatic or other fire alarm systems and fire extinguishing equipments. And, through the investigation of each fire and the determination of its origin, arson will be detected and discouraged through prosecutions, whenever indictments can be returned.

SAVED THEIR PRISONER

Woman Arrayed in Policeman's Clothing to Avert a Lynching.

Crown Point, Ind., May 5.—Mrs. Grace Smith, who shot and killed Clarence Murphy at Gary last Wednesday, escaped a threatened lynching at the hands of friends of the slain man by the aid of Mayor Knotts and Chief of Police Neumann of Gary, who brought her to the county jail in Crown Point in an automobile.

Murphy was a popular member of the Gary local of the Switchmen's union, and when the members of the order learned that it was proposed to take his slayer to the county seat they held a meeting, at which it was determined to lynch her, or at least to give her a coat of tar and feathers. The mob made no secret of its purpose and men were posted to halt the interurban car on which it had been intended to transfer the prisoner.

To outwit the mob the mayor and the chief of police left Gary with the prisoner over a road at a safe distance from the streetcar line. Mrs. Smith was arrayed in a policeman's coat and hat, and few knew that one of the occupants of the auto was the woman sought by friends of the slain switchman.

Home Dynamited at Jeffersonville. Jeffersonville, Ind., May 5.—The house occupied by G. A. Bennett was dynamited, but all members of the family and servants escaped injury. Zachariah H. Carter, sixty-one years old, is held, charged with the dynamiting. Carter would make no statement at the jail. The damage to the home amounts to several hundred dollars.

BOOTH TARKINGTON

Elected President of Western Association Princeton Alumni.

Indianapolis, May 5.—Booth Tarkington, '93, was elected president of the Western Association of Princeton Alumni for the ensuing year at the business meeting of the association held here.

REPORT SUBJECT TO CONSIDERABLE DOUBT

London Hears That Montenegro Has Given Up.

London, May 5.—Montenegro has decided to evacuate Scutari, according to fairly definite messages received from Vienna. The dispatches say that King Nicholas presided at a crown council at which all the generals of the Montenegrin army were present. It was decided by a majority of two votes to yield to the powers. The parliament of Montenegro has been summoned to meet on May 8, when it is expected to indorse the action of the crown council. Unfortunately there is considerable doubt as to the accuracy of this statement. The Austrian foreign office denies that it has received any official news from Herr Geisels, its representative at Cetinje, and the stories of King Nicholas yielding to the powers have since been followed by reports of the resignation of the entire Montenegrin ministry.

There are serious reports from Rome and elsewhere of a big fight between the troops of Essad Pasha, who recently evacuated Scutari, and the forces of Djavid Pasha, who were left after the fighting in Macedonia. According to these stories Essad Pasha ignored the warning of the Italian government to keep away from Durazzo and Avlona and marched on the former place. The troops of Djavid Pasha opposed him, but were routed after several hours' fighting. The Servians cleared the road for Essad Pasha, according to these reports, and the Albanians submitted to the former commander of Scutari.

"NEVER AGAIN" FOR THEM

Hurtful "Eats" Foresworn by New York Schoolboys.

New York, May 5.—Today was "swear-off day" for 10,000 boys in the elementary schools. They held up their right hands and promised to quit using cheap candy, highly colored soda water, greasy pastry and coffee. Of course alcohol and tobacco were included in the proscribed list, but boys of from six to twelve have not much use for drinks and tobacco anyway.

The big swear-off is an idea of Dr. C. Ward Crampton's. Dr. Crampton is director of physical training in the public schools.

BRUSH WITH MOONSHINERS

Ends in Death of Two Federal Officers on Cumberland Mountain.

Pikeville, Ky., May 5.—Two special deputies were killed and United States Deputy Marshal Mark Potter of Pikeville was wounded seriously Sunday in a battle with moonshiners on top of Cumberland mountain. The deputies were Marion Ramsey and John Sloan. A searching party found Potter wounded in the shoulder lying by the mountain roadside. He said that the shooting was done by Dave Hall and a negro.

The Coming G. A. R. Encampment.

Indianapolis, May 5.—The committee in charge of the arrangements for the G. A. R. encampment in Indianapolis, May 21, 22 and 23, say that reports from all sources indicate that the encampment will be one of the most successful that has been held. Both Alfred B. Beers, commander-in-chief of the G. A. R., and Ralph M. Grant, commander-in-chief of the Sons of Veterans, have accepted invitation to attend the meeting.

The London police nipped an elaborate plan to set fire to every big timber yard in London simultaneously and to cut all the telephones in the neighborhood, so as to prevent the calling of the fire brigades.

PARTY LOYALTY TO BE TESTED

Democratic Senators Must Stay On the Reservation.

THE PARTY WHIP WILL CRACK

On the Tariff Bill Which Will Reach the Upper House This Week, Caucus Plan Has Been Applied in Senate for the First Time in Many Years and Notice Has Been Served in Advance Upon All Possible Recalcitrants.

Washington, May 5.—This week legislative activities in the matter of tariff legislation will be transferred from the house to the senate. The Underwood bill will be passed by the house before the week is over and be "messaged to the senate." The first step in the senate will be to refer it to the finance committee. The Democratic members of that committee will take the measure and consider it behind closed doors.

As a matter of fact, the committee has been considering the bill for at least two weeks. The Democrats have a majority of six over all opposition. It looks now as if the Republicans and the lone Progressive, Poinexter of Washington, would all oppose the bill. It will be necessary, therefore, for the Democrats to hold practically their entire party strength in order to pass the measure.

President Wilson's supporters in the senate have invoked the caucus to hold the Democratic senators in line. The party whip will be cracked and the Democratic recalcitrant will be scourged as a party traitor. Some of the Democratic senators who recall the experiences of Senators Gorman, Bryce and Smith, who went contrary to the wishes of President Cleveland on the Wilson-Gorman bill, are not very anxious to get off the reservation at this time. Notice has been served on them by the president and the party leaders that their support or non-support of the Underwood bill after the caucus has approved it, will be the test of party loyalty. The caucus plan has been applied in the senate in this emergency for the first time in many years.

Republicans intend to make it uncomfortable for the Democratic senators who profess to favor a duty on sugar and on wool. Amendments will be offered in the senate to put on wool a duty ranging anywhere from 10 to 30 per cent. It is likely that a number of amendments will be offered proposing higher duties at first and then gradually scaling down to a 10 per cent duty. The Democratic senators from wool-growing states will be put to the necessity of voting for or against these amendments, and they cannot escape the responsibility of passing or defeating a duty on wool, for there are enough of them to carry a duty through the senate provided they join the Republicans. The same course will be followed with respect to a duty on sugar.

It is likely the tariff bill will be held in the senate Democratic caucus and in the finance committee for two weeks or longer. It is possible it may not be reported into the open senate until near the first of June. At least six weeks of debate in the senate is conceded and the general opinion is that it will be nearer two months.

"Drys" Regain Danville.

Danville, Ind., May 5.—Center township, in which Danville is located, voted "dry" by a majority of 70, reversing the vote of two years ago, which resulted in a victory for the "wets" by a majority of 37.

YOU ARE LOOKING OLDER THAN WHEN I SAW YOU LAST

Have You Ever Had This Said of You Because of Grey Hairs

It is most embarrassing to have a friend remark that you are "looking older".

Grey hairs are not becoming, people may tell you so, but they are saying to themselves: "What a pity she is not old. And she used to have such beautiful hair."

There is one quick, absolutely sure, easy way of getting rid of grey or faded hair—simply use Hay's Hair Health.

Benefit by the experience of thousands of others, who are using Hay's Hair Health. It brings back the fine, glossy, brilliant color of your hair—restores the grey

hairs to their natural color immediately, and keeps the scalp free from dandruff.

People voluntarily recommend Hay's Hair Health. It is not unusual for them to say: "I want to tell others about it. It's perfectly splendid." Try it yourself, today. You'll be surprised how quickly the grey hairs disappear; how beautifully dark and glossy your hair will remain after using it. Druggists sell more Hay's Hair Health than all others combined because their customers prefer it and they know that it can be guaranteed satisfactory.

Free: Sign this advt. and take it to the following druggists, and get a 50c size bottle of Hay's Hair Health and a 25c cake of Harfina Soap free, for 50c; or a \$1.00 size bottle of Hay's Hair Health and two 25c cakes of Harfina Soap free, for \$1.00.

MONUMENTS! MONUMENTS!

Our stock of monuments this season, surpasses anything we have heretofore carried, embracing a neat selection from the modestly plain to the elaborately carved from model designs.

An order for a monument placed now will insure its erection for Decoration Day.

The Products from the numerous quarries in the Barre, Vermont, district vary, not alone in color, but also in quality of stock. Who selects yours?

Montello and Millstone granite are of one uniform quality, the highest grade of monumental granite quarried.

JOHN W. GRIGGS

Heads Committee to Look Into Paterson Silk Strike.

MAYOR NAMES COMMITTEE

Effort Will Be Made to Adjust Differences at Paterson.

Paterson, N. J., May 5.—Mayor A. F. McBride, who has had his ear close to the ground during the long strike of the silk weavers and dyers, has appointed a committee of twenty-five of the leading men of the city to investigate all the points at issue for the purpose of finding some solution to the great labor problem in the silk city that has paralyzed the silk industry and has caused untold loss, not only to the thousands who are idle, but to all lines of business in Paterson.

The committee is headed by former United States Attorney General J. W. Griggs.

SAVED HIMSELF BY A JAB UNDER THE CHIN

Grand Duke of Baden Fends Off Assassin.

Berlin, May 5.—Sunday afternoon an unknown man dressed in the garb of a laborer tried to murder Frederick II., the grand duke of Baden, outside the Mannheim railway station. The grand duke had just arrived to attend the Mannheim races and was driving across the station square when a man jumped out of the crowd and sprang on the step of the carriage, waving a knife. The carriage was traveling rapidly and the man swayed and lurched toward the grand duke. He seemed to be anxious to grab the grand duke by the throat. The grand duke deftly jabbed him under the chin with the pommel of his sword and the would-be assassin fell back in the road. The crowd which had assembled rushed angrily toward the man as if they would lynch him, but the police saved him and took him to prison.

It is not certain whether the man is a criminal or a maniac. He made a confused statement to the police. He said he was a paper hanger and that he wanted to present a petition to the duke, but telegrams from Mannheim said it was obviously a prearranged anarchist attempt and was probably connected with the gang which it was recently reported had planned an attack on the kaiser.

CUT HIS FATHER'S THROAT

Evansville Boy Resented Suggestion as to How to Spend Wages.

Evansville, Ind., May 5.—James Ferres, sixteen years old, stabbed and killed his father, John L. Ferres, forty-five years old, in a quarrel over the disposition of the boy's wages.

The father wanted him to buy clothes with his week's wages and the boy insisted on getting a bicycle. Seized by his father, the boy stabbed his parent in the throat with a pocket knife, the elder Ferres dying in twenty minutes. The boy was arrested. Both were employed in the bottling department of a local brew.

Chairman McCombs of the Democratic national committee has sailed for Europe to escape insistent office seekers.

PLAN MEMORIAL TO MOLLY PITCHER, FAMOUS HEROINE

Patriotic Citizens Suggest a Monument at Her Grave in Carlisle, Pa.

Patriotic citizens and organizations are taking great interest in the proposal that a monument in honor of Molly Pitcher, heroine of the battle of Monmouth during the Revolutionary war, be erected at Carlisle, Pa., where her body is buried.

Advocates of the memorial plan got the Pennsylvania legislature interested in the subject and expect definite results soon.

It is planned to honor this American woman, who bravely took her husband's post at a cannon in one of the fiercest battles of the Revolution after he had fallen.

The proposed memorial has been designed as a pedestal surmounted by a figure of the illustrious Molly, whose married name was McKolly or McCauley. Particular care has been taken by the sculptor to make the likeness as perfect as possible.

Five women descendants of Molly, now living in Carlisle, were used as models for the statue. Excellent descriptions by people who knew the woman were available and were used in molding the figure.

On the proposed monument, for which the state of Pennsylvania will be asked to spend \$15,000, are two bronze tablets, one of which will show Molly with her traditional pitcher lending succor in the midst of battle and the other will show her at the cannon's mouth. In front of the monument an exact reproduction of the cannon she served will be constructed.

NEW MAMMOTH CAVE IN UTAH

Great Cavern Found Near Ogden by a Ranchman.

A new Mammoth cave, which promises to be interesting from a historical as well as a geological standpoint, has been found in the mountains near Promontory point, eighteen miles from Ogden, Utah. It was discovered by Thomas Whitaker, a ranchman, and his account of what he saw there created so much interest that a party of professors at the University of Utah immediately began making plans for an exploration trip through the cave.

It is believed that Whitaker is the first white man who ever entered the cave, as the surrounding country is so barren that no one has lived there within the memory of civilized men.

The walls of the cave are covered with what appear to be prehistoric hieroglyphics, or picture writing. In the district near the cave there is current an Indian legend to the effect that a great battle was fought between two tribes in that vicinity many years ago and that the vanquished tribe perished in an immense cave.

The front chamber of the series in the cave is about 75 by 150 yards in area, and its height is estimated at forty-one feet. On the walls of the chamber are crudely drawn pictures of Indians.

DIES IN HIS 104TH YEAR.

New Jersey Man Attributed Long Life to Moderation.

John Butler died recently at his home in Ocean Grove, N. J., in his one hundred and fourth year. He was born at Tottenville, N. Y., Jan. 16, 1810.

Up to the time he was in his one hundred and first year Mr. Butler could see as well as he could at seventy-five, and he enjoyed splendid health. He was as sprightly as few men of eighty are. His eyesight began to fail at length, and finally he became almost blind, but up to a few weeks ago he retained his bodily health.

Uncle John, as every one had called him for years, always preached "moderation in all things," and he practiced moderation except perhaps in the matter of coffee. He indulged in this to the extent of eight cups a day for many years. He never used tobacco, but drank liquors when he wished.

Great Remedy for INDIGESTION And Gastris

A Postal Will Bring Trial Treatment and a History of Famous People.

MI-O-NA Stomach Tablets surely do end all indigestion and stomach misery and to prove it we will send a trial treatment, an interesting booklet, and tell you exactly how to banish all stomach trouble and put your stomach in fine shape.

OVERTIME GAME LOST BY LOCALS

Connersville Won Opener by 4 to 2

Score After Battling For Eleven Innings.

COOLEY HAD SHADE ON AVERY

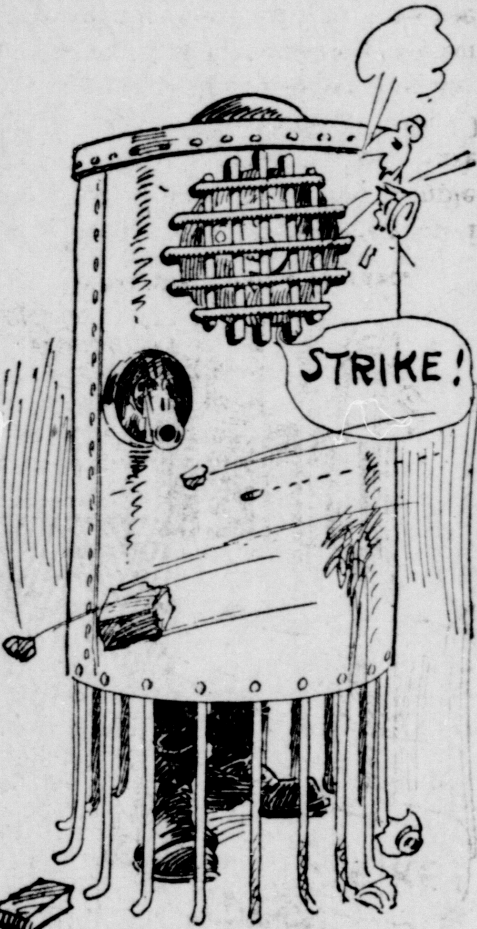

Three Hits and an Error in Final

Frame Gave Visitors Two

Run Lead.

History repeats itself. Last year Connersville won the opening game from the Rushville team, 11 to 0. Yesterday the Connersville team turned the trick again, only it took eleven innings to do it, and the score was 4 to 2. Scott Cooley was the whole show for Connersville and the farther he went the better he got. He was just so good that the locals failed to connect for a single hit after the fifth inning.

Captain Cook's men could do nothing with Cooley and the four hits registered off him can easily be counted. One home run, two doubles and a single was the best the team could do and was lucky to get this much. "Chick" Avery was on the mound for the locals and pitched good ball with the exception of the

What the Umpire Needed.

fatal eleventh. "Chick" blew up in this frame and three hits coupled with a costly error netted three runs and put the game on ice. It was a grand little opening and as a start had to be made some place and some time it might as well have been Connersville as any other team. One thing certain, the game showed that Rushville is in need of at least a couple of heavy hitters.

The game from the first developed into a pitchers' battle and our own "Long John" had the best of the argument in the early rounds. Up until the eleventh the visitors secured only five hits and these were scattered. The team behind "Chick" played

Home runs—Van Zandt. Two-base hits, Massing, Cook, Thomas, Tryon. Base on balls, off Avery, 2; off Cooley, 1. Struck out—by Avery, 11; by Cooley, 14. Left on bases—Rushville, 4; Connersville, 4. Umpire, Fisher. Time, 2 hours.

ragged ball and with a two run lead seemed to lay down. The team lacked the fighting spirit and seemed content with the two run lead. This lingering was fatal because the team could have added more in the early rounds, but when they needed a few in the latter part it was impossible to get them.

Rushville's two counters were made in the second. VanZandt, the first man up in this frame, swatted the first ball pitched for a home run. The ball was labeled for the willows when it left his bat and is now resting somewhere in Flatrock. The other run was the result of errors. Connersville annexed one in the fifth and tied the game up in the sixth. In the eleventh Klenk led off with a single. Tryon struck out. Old Charley Thomas, who didn't get a hit all last year with the locals followed with a two-base hit. Avery walked Coombs, filling the bases. George lined out a fly to VanZandt and Klenk scored on the error. Herman was out, Cook to Caldwell, but Thomas scored on the play. This two run lead was enough as the locals could do nothing more than get a man as far as second in their half.

The team behind Cooley was by far faster than the one last year. Two Rushville discards, "Hop" Spacey and Thomas were a factor in the defeat. Cooley is always a hard man to beat and he sure had the numbers of the Rushville team.

Notes of the Game

It was no mean game for a starter and even if the locals lost it showed up the weak places. An effort will be made to locate a first baseman and a heavy hitting outfielder. "Hal-ty" was missed in left field and he may again be back before long.

Umpire Dale Fisher had his troubles. His greatest fault is that he hesitates too long in giving decisions. Suggestion to the management—why not get an umpire that calls balls and strikes behind the bat?

Charley Thomas did more talking and rag chewing yesterday than he did all last year as a member of the Rushville team. Even at that he is a classy first baseman.

Mattern, the new catcher of the locals probably made the best impression of any of the new players. The fans were well pleased with his work and the kid is a comer.

The team as a whole looks good and exceptions must be made for the first game. It was the first game of the year for several of the players and the team is bound to improve with a few games.

ELECTED TO OFFICE.

Ward Hackleman of Indianapolis, son of Dr. and Mrs. F. G. Hackleman of this city, Saturday was elected secretary-treasurer of the Indianapolis Alumni association of the Beta Theta Pi fraternity. The state fraternity convention closed there Saturday.
